## Biography

After releasing a demo-EP 2004 and about twenty concerts around South-Germany Kenzari's Middle Kata were already called the "darlings of the Bavarian post-hardcore scene" (*Musikverein, Nuremberg*).

Their debut album "Black Box Consciousness" appeared on Millipede Records in 2006. Then they released some single songs on particular vinyl samplers and a split longplayer (w/ Nihilists). Besides there were some noteworthy support shows and various tours mostly around Germany, Austria and Switzerland.

The second album "Body Vs. Function" appeared in early 2011. It was produced by German Indie veteran Guido Lucas (Ken, Ex-Les Hommes Qui Wear Espandrillos, Ex-Scumbucket) and released by the legendary German label Blunoise Records (Craving, Harmful, Blackmail and many more).
